## MEMORANDUM

**TO:** Garber-Wellington Technical Committee  
**FROM:** John M. Harrington, Division Director, Water Resources  
**DATE:** April 7, 2006  
**SUBJECT:** Progress Report

---

Staff is presenting talks concerning drought preparedness to various interested groups. Members have included presentations to the councils of Choctaw and Slaughterville.

Staff is presented a paper on resistivity techniques to the Oklahoma Groundwater Association meeting this month.

Pathogen sampling project has concluded. Staff has finished data report. Staff currently is working on HSPF model for TMDL calculations and finishing final report due April 13.

Staff will be participating with the Oklahoma Department of Environmental Quality on public meetings concerning pathogen TMDLs on the North Canadian River next month.

Staff is participating in preparing a Stream Restoration Conference with INCOG, OSU, and the Office of the Secretary of Environment. Tentative date is in November, with the conference site at the Reed Conference Center in Midwest City. Crutcho Creek will be a focus during the conference.

Comments were received and evaluated on the Draft DO TMDL report on the North Canadian River. Revised document sent to the Office of Secretary of Environment on November 7 for EPA review and approval.

The SuperSting resistivity unit was delivered to ACOG October 31. Preliminary field-testing will start in April.
