MEMORANDUM

DATE: July 10, 2006
TO: Garber-Wellington Technical Committee
FROM: John M. Harrington, Division Director, Water Resources Division
SUBJECT: Cancellation of July 14, 2006 Meeting

Due to the great attendance at the San Antonio conference and the subsequent emergency OML meeting last week, we will not have a Technical Committee meeting this month. I would strongly encourage members to review Appendix F and make their thoughts and suggestions known to ODEQ!! I will also be making available the full USGS article Mark Derschweiler referenced concerning Bacteria Source Tracking if you are interested.
