FY 2010  
TASK 2.02, SUBTASK 1

# Annual Listing of Federally Funded Projects in the Oklahoma City TMA

During FFY 2009  
October 1, 2008 - September 30, 2009

ASSOCIATION OF CENTRAL OKLAHOMA GOVERNMENTS

January 2010

## PRELIMINARY Not For Publication

This report is the product of a project (study) financed in part by the Federal Transit Administration and the Federal Highway Administration of the U.S. Department of Transportation.

The contents of this report reflect the views of the Association of Central Oklahoma Governments (ACOG), the Metropolitan Planning Organization for the Oklahoma City Regional Transportation Study (OCARTS) Area. ACOG is responsible for the facts and the accuracy of the data presented herein. The contents do not necessarily reflect official views or policy of the U.S. Department of Transportation. This report does not constitute a standard, specification, or regulation.

## BACKGROUND

The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was signed into law on August 10, 2005, covering federal fiscal years (FFY) 2004-2009. It replaced the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21), which covered FFY 1998-2003<sup>1</sup>. TEA-21 established the requirement for an annual listing of federally funded projects as a means to identify and communicate to the public the actual federal funds that were expended during the previous year. SAFETEA-LU continued the requirement and enhanced it by requiring the inclusion of federally funded bicycle and pedestrian improvements. The annual listing requirement is included in the Federal Transit Administration (FTA)/Federal Highway Administration (FHWA) Final Rule on Statewide and Metropolitan Planning published in the Federal Register on February 14, 2007.

Consistent with SAFETEA-LU, Congress approved the FFY 2009 appropriations to the Federal Highway and Federal Transit Administrations to fund surface transportation improvements nationwide. Federal funds were apportioned, by formula, to the State of Oklahoma and eligible urbanized areas.

This report lists the federally assisted highway and transit projects that were approved within the Oklahoma City Transportation Management Area (TMA) during FFY 2009–Oct. 1, 2008 through Sept. 30, 2009. A map showing the Oklahoma City TMA and the Census-designated urbanized areas is provided in Figure 1. The TMA, known as the Oklahoma City Area Regional Transportation Study (OCARTS) area, defines the metropolitan area within which long and short-range transportation planning is performed.

Federal funds provided the greatest share of funding for most of the projects included in this report, and state and local matching funds made up the balance. As required by federal law, all transportation projects receiving federal funds must be included in the metropolitan and statewide long-range plans (LRP) and short-range transportation improvement programs (TIP/STIP). This ensures that the projects are part of a plan that was cooperatively developed by the affected local governments, state and federal transportation agencies, and other interested parties and citizens throughout the region.

The Federal Highway Administration administers several funding sources for improving the efficiency, safety and connection of the nation's streets, highways and bridges. Many of these funding sources may also be used for bicycle and pedestrian pathways, as alternatives to vehicle travel, and some highway funds are "flexible," meaning they can be used for eligible transit activities. The major Federal-aid highway funding categories include:

- Interstate Maintenance (IM)
- National Highway System (NHS)
- Bridge Replacement and Rehabilitation (BR)
- Surface Transportation Program (STP)
- Congestion Mitigation/Air Quality (CMAQ)
- Highway Safety Improvement Program (HSIP)

---

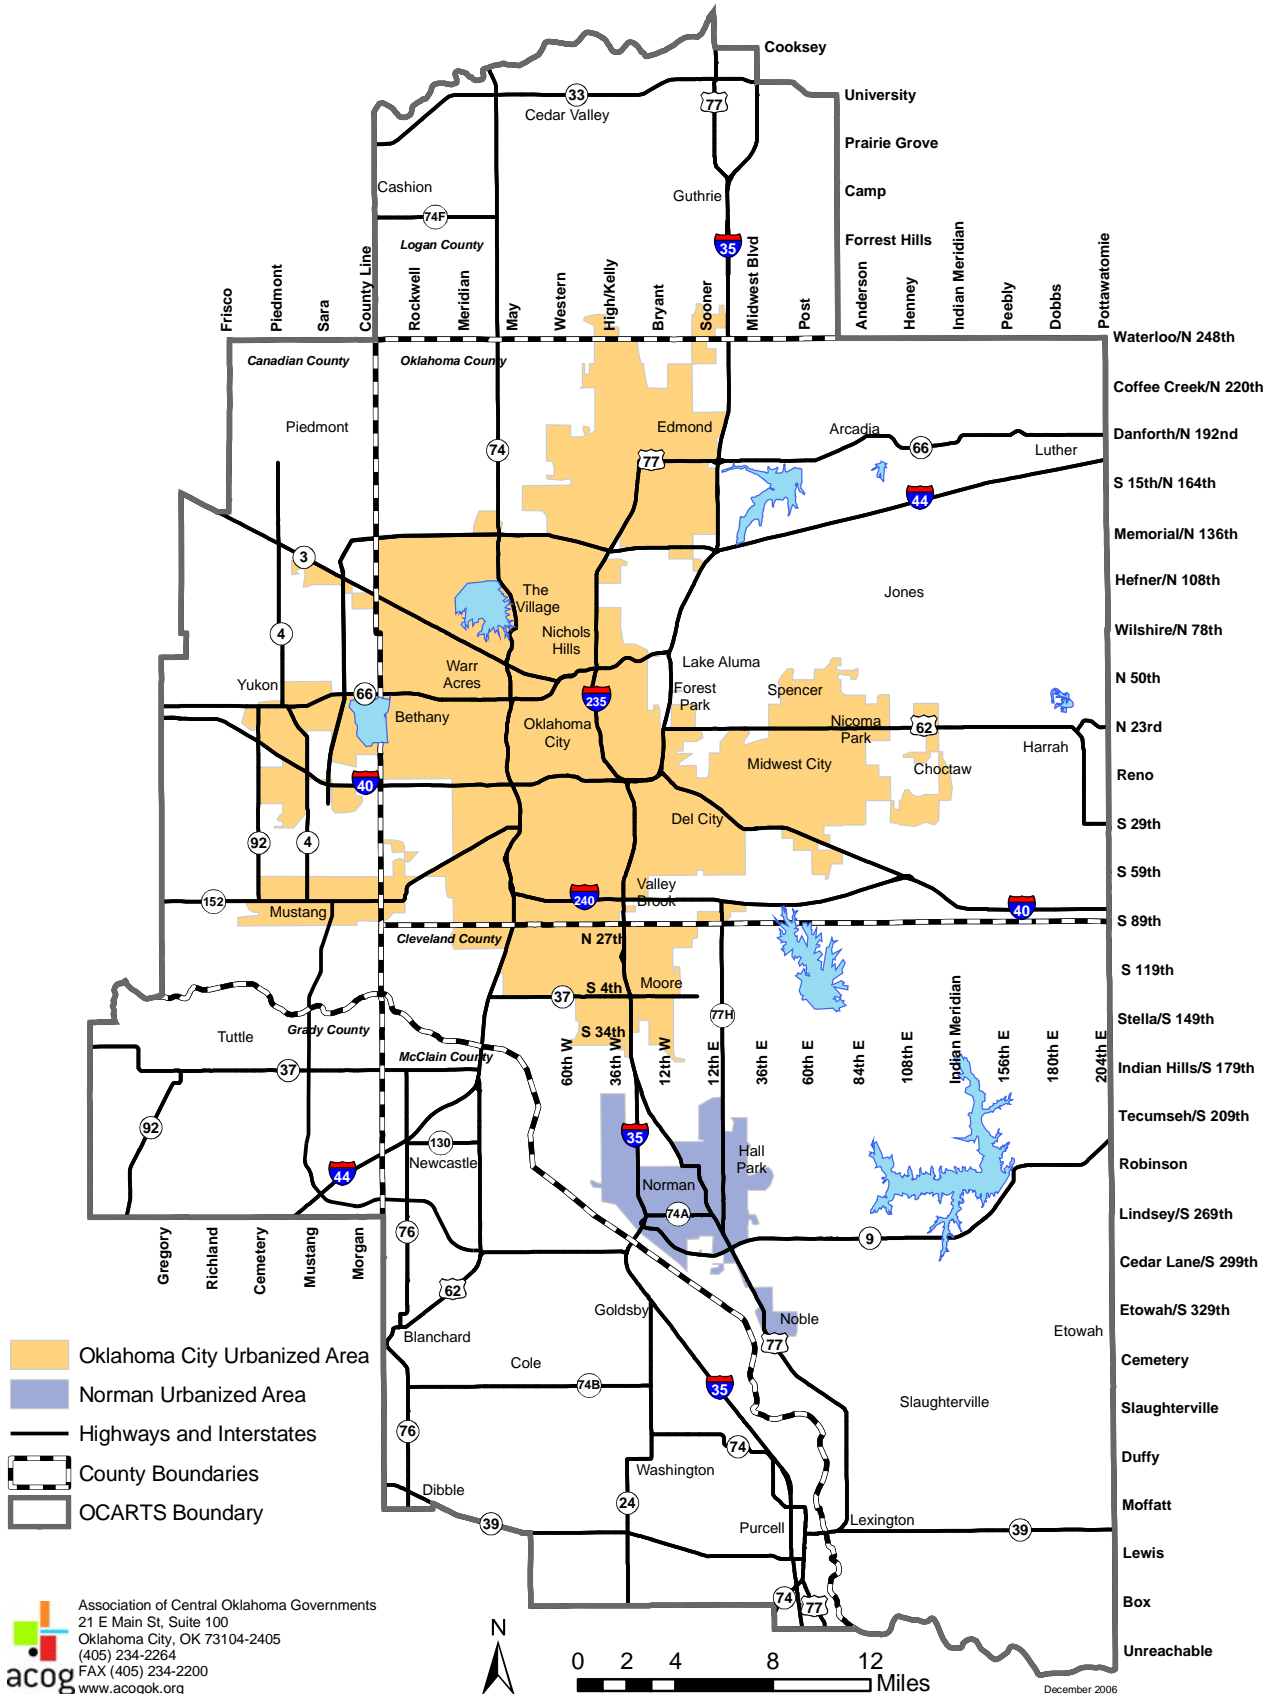

<sup>1</sup> TEA-21 was extended numerous times by Congress beyond its scheduled expiration date of September 30, 2003.

Federal Transit Administration programs also include several funding sources aimed at improving public transportation in both urban and rural areas, and improving mobility among the elderly, persons with disabilities and those making the welfare-to-work transition. This report includes transit capital projects and services funded with the following Federal-aid funding categories:

- Urbanized Area Formula Program (Sec. 5307)
- Discretionary Capital Program (Sec. 5309)
- Elderly and Persons with Disabilities Program (Sec. 5310)
- Non-Urbanized Area Formula Program (Sec. 5311)
- Jobs Access and Reverse Commute Program—JARC (Sec. 5316)
- New Freedom Program (Sec. 5317)

In addition to these federal formula funds, during FFY 2009 Congress approved and the President signed the American Recovery and Reinvestment Act (ARRA) which provided additional funding for infrastructure improvements intended to promote economic stimulus throughout the country. The funds received and authorized during FFY 2009 within the OCARTS area are described later in this report.

## HIGHWAY PROJECTS

### FFY 2009 STP-UZA FUNDS

The Oklahoma City Urbanized Area (UZA) receives an annual suballocation of the Surface Transportation Program (STP) funds provided to the State, as required by law. The amount of the suballocation in FFY 2009 was based on the population within the UZA boundaries established by the 2000 Census<sup>2</sup>. The STP funds are subject to an obligation authority, or spending limit, which is usually less than the apportionment, and in FFY 2009 was 96.46 percent. The funds are subject to lapse if not fully obligated within four years of the date they are made available.

In addition to the STP funds, the State of Oklahoma provided the Oklahoma City metropolitan area with a suballocation of FFY 2009 Congestion Mitigation/Air Quality (CMAQ) funds for use on projects to enhance the region's air quality. The funds suballocated to the Oklahoma City metro area (STP and CMAQ) are collectively referred to as STP-UZA funds.

On October 12, 2009, the Oklahoma Department of Transportation (ODOT) Programs Division notified ACOG of the final FFY 2009 funds available to the Oklahoma City Urban Area for obligation, including the fourth quarter redistribution of obligation limitation.

These funds included an FFY 2009 obligation authority of a little over \$18.8 million from the Surface Transportation Program (STP) and an additional \$650,000 in obligation authority from the Congestion Mitigation/Air Quality (CMAQ) Program for use on projects to assist Central Oklahoma maintains its air quality attainment status. The MPO was also notified that, at the close of FFY 2008, it had a negative balance of -\$93,088.91, and this amount was deducted from the region's FFY 2009 obligation authority.

The final FFY 2009 obligation authority available for expenditure in the Oklahoma City Urban Area was \$19,408,408.17. The total funds available for expenditure in FFY 2009 are described in Table 1.

Table 1:  
FFY 2009 Funds Suballocated to the OKC Urbanized Area

Fund Category	Funds Apportioned	Obligation Authority Percentage	Obligational Authority
FFY 2009 STP	\$19,543,331.00	96.46%	\$18,851,497.08
FFY 2009 CMAQ	\$650,000.00	100.00%	650,000.00
FFY 2008 Obligation Authority Overage			-93,088.91
FFY 2009 Total			\$19,408,408.17

<sup>2</sup> Based on the results of the 2000 Census and revisions to the Census Bureau's criteria for determining urban and rural territories, on May 1, 2002 the Census Bureau delineated two urbanized areas within the OCARTS TMA: the Oklahoma City UZA and the Norman UZA. Sec. 6016 of SAFETEA-LU includes language to reattach the Norman UZA population to the OKC UZA population for highway funding purposes. Prior to SAFETEA-LU, the FFY 2003, 2004 and 2006 Appropriations Bills included similar language to avoid a loss of federal funding for the OCARTS area.

## OBLIGATION OF FFY 2009 OKLAHOMA CITY URBANIZED AREA FUNDS

The following pages include two tables which provide a summary of the funds obligated during FFY 2009 within Central Oklahoma using the obligation authority attributed to the Oklahoma City Urbanized Area, as described above.

Table 2 lists each transaction, in chronological order, that occurred in FFY 2009 with a running balance of the funds resulting from each. This table also provides information on the funding source(s) used for each transaction and the percent of the construction cost that was funded with federal funds. At the end of FFY 2009, the region had balance of \$4,633,499.16, which will be added to its FFY 2010 obligation authority. A portion of this funding was intentionally carried forward to fund a joint ODOT/City of Norman project in FFY 2010.

Table 3 provides a breakdown of the STP-UZA funds that were obligated by each urbanized area entity, in terms of total funds and percent. During FFY 2009, the Oklahoma City Urban Area spent \$14,774,909.01, or 76.13 percent, of its total obligation authority.

**Federal Forms:**

PR2A is used to modify a project for overruns or underruns

PR2AI is used to reduce the funds on an inactive project

PR2AR is used to increase the funds on an inactive project that was previously reduced

PR2AW is a modification for award of a project

PR20 is a final voucher processed to close a project file

PR1240 is used to authorize a project, place it under agreement, or withdraw a project that has no funds expended

PR1240A - Project Cancelled

## OBLIGATION OF OCARTS AREA STIMULUS FUNDS

On February 17, 2009, President Obama signed the 2009 American Recovery and Reinvestment Act (ARRA), also known as the Economic Stimulus Package. A small portion of ARRA funding was designated for “shovel ready” transportation infrastructure improvements, and was distributed to states and metropolitan areas on the same formula basis as the Surface Transportation Program (STP) funds. In total, the State of Oklahoma received obligation authority for \$464,655,225 in ARRA funds and the Oklahoma City Urbanized Area received a suballocation of \$33,670,253. All ARRA funds were made available at a 100 percent federal share and projects were required to be authorized by March 2, 2010 to avoid any loss of unused funds.

Table 4 below reflects the roadway projects that were authorized in FFY 2009 with the Oklahoma City Urbanized Area portion of ARRA funds, and Table 5 includes other OCARTS area stimulus projects that were funded with the State’s ARRA obligation authority. The OCARTS area includes both the urbanized area and surrounding non-urbanized area upon which long and short-range transportation planning is performed for Central Oklahoma.

## FFY 2009 OCARTS AREA PROJECTS SPONSORED BY THE STATE

In addition to the projects described above, which utilized urbanized area funds, numerous projects were funded with other categories of federal and state funds, matched with state or local dollars during FFY 2009. These include projects located on the State Highway System (Interstates, U.S. highways and State highways). Table 4 provides a summary of all of the state-sponsored projects in the OCARTS area that were authorized for letting using FFY 2009 federal formula, stimulus and discretionary funds. The funds reflected in the following table represent the cost of each project at the time of contract award. Additional cost overruns or underruns may occur subsequent to project lettings. In total, a little over \$199 million in federal, state and local funds (beyond the urbanized area funds) was obligated within the OCARTS area during FFY 2009, including \$42.7 million in federal stimulus (ARRA) funds.

## BICYCLE AND PEDESTRIAN PROJECTS

### SURFACE TRANSPORTATION PROGRAM (STP) ENHANCEMENT PROJECTS

SAFETEA-LU maintained the requirement for a 10 percent set-aside of Surface Transportation Program funds for the Transportation Enhancement program. This requirement was begun under the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991, and continued as part of the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21). According to federal law, each state must utilize 10 percent of its STP funds for transportation enhancement activities, which includes construction of bicycle and pedestrian paths, bicycle/pedestrian education and safety programs, highway landscaping and beautification, historic preservation projects related to transportation facilities, and several other activities. Each enhancement activity must have a relationship to the surface transportation system.

Historically, Oklahoma has received an annual apportionment of approximately \$12 million, which is administered by the Oklahoma Department of Transportation. In June 2009, the Oklahoma Transportation Commission approved a minimum annual dedicated funding of \$6 million for five ODOT-sponsored enhancement programs, beginning in FFY 2010. These are the Statewide Accessibility Program, Statewide Bicycle/Pedestrian Program, Statewide Facilities Improvement Program, Control and Removal of Outdoor Advertising Program, Scenic and Historic Highway Program, and Statewide Tree Grant Program.<sup>3</sup>

The remaining enhancement funds (approx. \$6 million/year) are made available for competitive application every two years. Eligible applicants include federal and state agencies and tribal, county and local governments. Enhancement projects are eligible for an 80 percent federal share, with at least a 20 percent match provided by the project sponsor. Projects from the 10<sup>th</sup> biennial application cycle, which will use FFY 2010-2011 funds, were approved by the OTC in June 2009.

During FFY 2009, the projects listed below in Table 6 were awarded using STP-Enhancement funds. These projects were among those selected statewide for funding under the FFY 2007 and FFY 2008 biennial application cycle.

**Table 6:  
Federal Fiscal Year 2009  
STP-Enhancement Projects Awarded in the OCARTS Area**

Entity	Project Description	Job Number	Federal Share	Local Share	Total
Bethany	Children's Center Accessibility & Community Linkage, Phase 3	24557(04)	115,893	28,973	144,866
Midwest City	Midwest City Trails Master Plan and Implementation Study	24558(04)	100,000	25,000	125,000
Oklahoma City	Stockyards City Gateway Arch	24564(04)	262,500	112,500	375,000
Totals			478,393	166,473	644,866

Source: ODOT Programs Division

<sup>3</sup> These replaced the previous ODOT-sponsored enhancement categories approved by the OTC in September 1998 - historic rail depot restoration, tourist information/welcome centers, "Keep Our Land Grand" anti-litter campaign, outdoor advertising/junkyard control, and discretionary projects.

## RECREATION TRAILS PROGRAM (RTP) PROJECTS

SAFETEA-LU maintained the Recreational Trails Program (RTP). The RTP was originally established under TEA-21, and replaced the National Recreational Trails Funding Program established under ISTEA. The RTP provides 80 percent federal funds for construction of motorized and non-motorized recreation trails. Other eligible activities include restoration, maintenance, enhancements, trailside facilities and land acquisition associated with such trails.

The RTP is administered by the Oklahoma Tourism and Recreation Department (OTRD), which accepts competitive applications on an annual basis. Eligible applicants include city and county governments, state agencies, other governmental bodies and private non-profit organizations.

Two OCARTS Area RTP projects were approved for funding during 2009 as described in Table 7 below.

**Table 7:  
Federal Fiscal Year 2009

## TRANSIT PROJECTS

### FFY 2009 TRANSIT EXPENDITURES - URBANIZED AREA PROGRAM

Public transportation services in the OCARTS area are provided in accordance with the Federal Transit Administration's urban and rural transit programs. The Central Oklahoma Transportation and Parking Authority and Cleveland Area Rapid Transit provide public bus services known as METRO Transit and CART, respectively.

Federal funds provide a significant portion of the capital needed for planning, equipping and maintaining public transit within urban areas throughout the country. Federal funding sources for these services include the FTA Sec. 5307 Urbanized Area Formula Program and Sec. 5309 Discretionary Capital Program. FTA also administers funding for the Jobs Access/Reverse Commute (JARC) Program, which assists public and private transportation providers in adding or tailoring services to improve transportation opportunities for those making the transition from welfare to work. SAFETEA-LU added a new program called New Freedom, which is available for transit improvements that will assist physically disabled patrons beyond the requirements of the Americans with Disabilities Act (ADA). The JARC and New Freedom funding programs are available to both public and private transportation providers, and are distributed through a competitive selection process administered by ACOG.

Within the OCARTS area, FTA formula funds are provided to two urbanized areas as determined by the U.S. Census Bureau and adopted by the FTA for planning and funding purposes. These urbanized areas are based on the 2000 census data using revised criteria that caused the 1990 Oklahoma City UZA to be split into the Oklahoma City UZA and the Norman UZA. FTA provides Sec. 5307 urbanized area formula funds to all urbanized areas over 50,000 population.

At the state level, the Oklahoma Legislature annually appropriates funding to the Public Transit Revolving Fund to assist with the provision of urban and rural transit services throughout the state. Locally, fares are collected from patrons who ride the buses and these farebox revenues assist with funding transit services. The Cities of Oklahoma City and Norman also budget a portion of their funds for transit operations by METRO Transit and CART, respectively, and funds are budgeted by other municipalities and universities that receive local and express bus service, as well. Many non-profit organizations contract with COTPA and participate in the funding of special programs that assist their elderly and disabled clients.

Tables 8 and 9 provide a summary of the federal funds spent by COTPA and CART, respectively, during FFY 2009 for capital purchases, operating, maintenance and planning. Also included in Table 8 is a COTPA project funded with American Recovery and Reinvestment Act (ARRA) funds during FFY 2009. CART did not have any ARRA expenditures prior to September 30, 2009. In total, COTPA will receive \$10,021,473 in ARRA funds and CART will receive \$1,881,530<sup>4</sup>, although nearly all ARRA transit funds will be awarded in FFY 2010.

---

<sup>4</sup> Includes \$17,500 in ARRA funds transferred from the Oklahoma-Ft. Smith, AR region to CART.

## FFY 2009 TRANSIT EXPENDITURES - ELDERLY AND DISABLED PROGRAM

In addition to the transportation services available to the elderly and persons with disabilities provided through COTPA, numerous organizations operate wheelchair accessible vehicles under 49 U.S.C., Section 5310. The Section 5310 program gives private, non-profit organizations the opportunity to purchase vehicles, with federal assistance, to transport elderly and disabled clients to meet their everyday needs, including transportation to work, medical appointments, shopping and recreation. Other eligible applicants for these funds can include public bodies approved by the State to coordinate services for elderly persons and persons with disabilities, and public bodies which certify to the Governor that no non-profit corporations or associations are readily available in their area to provide service to meet the special needs of the elderly and disabled.

The Section 5310 funds pay for 83 percent of the capital cost of a wheelchair accessible vehicle (80 percent for non-accessible vehicles), with the local match, operation and maintenance paid for by the sponsoring organization.

The Department of Human Services, Aging Services Division, administers this program. Applications for funding are considered by a subcommittee of the Intermodal Transportation Technical Committee (ITTC), and approved projects are included in the Transportation Improvement Program (TIP), as required for federal funding eligibility.

MPO review of applications for Section 5310 assistance is conducted to ensure that the services provided in the OCARTS area are meeting the needs of elderly and disabled persons, and to ensure coordination among Section 5310 providers and the public transit system. Cooperation between operators is encouraged so that the maximum number of patrons can be served.

In FFY 2009, the following OCARTS area applications, reflected in Table 10, were approved for funding.

**Table 10:  
FFY 2009 OCARTS Area Section 5310 Approvals**

<b>Organization</b>	<b>Type Vehicle</b>	<b>Percent Federal</b>	<b>Federal Share</b>	<b>Local Share</b>	<b>Total</b>
Aging Services, Inc. - Cleveland County	One 11-passenger, 20ft. bus with wheelchair access	83%	\$39,840	\$8,160	\$48,000

Totals			\$470,860	\$101,140	\$572,000

## FFY 2009 TRANSIT EXPENDITURES - NON-URBANIZED AREA PROGRAM

The Section 5311 Non-Urbanized Area Program is administered by the Transit Programs Division of the Oklahoma Department of Transportation, which is charged with providing an equitable distribution of funds throughout the State for the administration of public transportation services in non-urbanized areas. There are 19 agencies providing rural public transportation services within Oklahoma.

Section 5311 funds are provided by the Federal Transit Administration (FTA) for the purchase of capital equipment, administration and operation of the rural transit systems. Rural operators may receive up to 80 percent reimbursement for capital and administrative expenses, and a 50 percent reimbursement for their net operating deficit. Capital expenditures associated with compliance with the Americans with Disabilities Act and the Clean Air Act, as amended, may receive a 90 percent federal share. The local share is provided by the operating agencies receiving the FTA assistance.

In the OCARTS area, Section 5311 funds are provided to the Logan County Historical Society, which operates a system known as the First Capital Trolley, and Delta Community Action, which operates a rural transit system known as Delta Public Transit.

**Table 11:  
FFY 2009 Rural Public Transit Expenditures**

PROJECT DESCRIPTION	Percent Federal	Federal Share	Local Share	Total
<b>First Capital Trolley</b>				
<b>Section 5311</b>
